

Spatial Insights, Inc.

A Geographic Information Services Company

GDT Dynamap Extract and Append Application

*extract and
append files in
one operation*

*create seamless
map coverages
on the fly*

*create multi-state,
statewide, or MSA
coverages*

*works directly with
GDT's Dynamap
2000 CDs*

*saves time when
building study
areas*

*reduces file
maintenance*

*works with
MapInfo™ and
ArcView™ formats*

MapInfo™ is a registered trademark of the MapInfo Corporation. Dynamap is a registered trademark of Geographic Data Technology.

The Challenge:

Assembling user defined regional or multi-state coverages from GDT's Dynamap data that are packaged on a county by county basis can be a time consuming process.

The Solution:

Spatial Insights GDT Dynamap Extraction and Append application allows you to extract and append user-defined areas on the fly directly from the Dynamap CD ROM data.

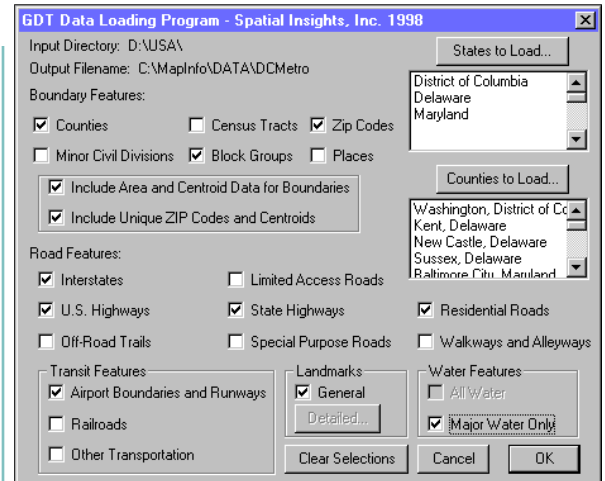

With the Spatial Insights GDT Dynamap Extraction and Append application, you can select and append data covering multiple states and/or counties in one single operation.

The application works with either MapInfo™ or ArcView™ format files and is designed with a user friendly menu driven interface.

The Cost:

Quantity	Cost/Copy
1	\$425
2-5	\$375
6-10	\$325
11 +	Call

Site licenses, reseller and developer discounts are available.

GDT Dynamap Extract/Append Program Interface

About Spatial Insights:

Spatial Insights is a Geographic Information Services company specializing in providing project consulting and mapping services, GIS software, training, and customized geographic and demographic data products and systems to commercial organizations.

Using advanced application development tools, we design and build customized mapping systems to address specific geographic data integration and marketing applications.

Based in the Washington, DC area, the company is privately held and qualifies as a small business.
