

Spatial Insights, Inc.

A Geographic Information Services Company

StreetPro™ Extract and Append Application

The Challenge:

Assembling user defined regional or multi-state coverages from MapInfo's StreetPro™ data that are packaged on a county by county basis can be a time consuming process. "Seamless" tables created using MapInfo's autoloader or seamless table manager utilities can not be updated or used to create thematic maps.

extract and append files in one operation

create seamless map coverages on the fly

create multi-state, statewide, or MSA coverages

works directly with StreetPro™ data on CD ROM

seamlessly joins up to 30 different themes in one operation

option to save selection criteria for future data extractions

saves time when building study areas

reduces file maintenance

The Solution:

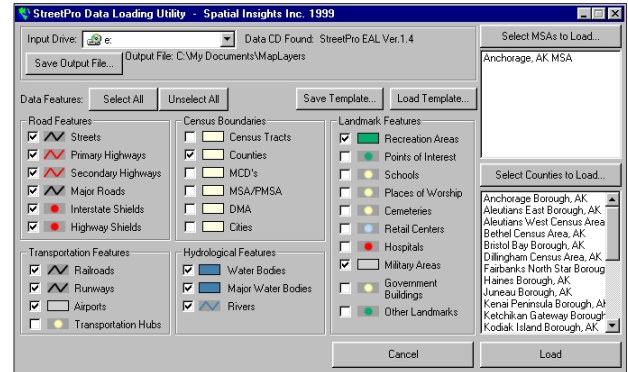

Spatial Insights StreetPro™ Extract and Append application for MapInfo™ allows you to extract and append user-defined areas on the fly directly from the StreetPro CD ROM data.

With the Spatial Insights StreetPro™ Extract and Append application, you can select and seamlessly append data covering multiple states, metro areas (PMSA, CMSA, MSA) and/or counties in one single operation.

The Cost:

| Quantity | Cost/Copy |
|----------|-----------|
| 1 | \$795 |
| 2-5 | \$695 |
| 6-10 | \$595 |
| 11 + | Call |

Site licenses, reseller and developer discounts are available.

StreetPro™ Extract/Append Program Interface

About Spatial Insights:

Spatial Insights, Inc. is a Geographic Information Services company specializing in providing project consulting and mapping services, GIS software, training, and customized geographic and demographic data products and systems to commercial organizations.

Using advanced application development tools, we design and build customized mapping systems to address specific geographic data integration and marketing applications.

Based in the Washington, DC area, the company is privately held and qualifies as a small business.
